Sir,

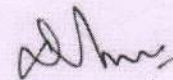

Saranathan College of Engineering, Tiruchirappalli was started in the Year 1998 and continues to deliver quality technical education through affiliations with Anna University, Chennai.

As you are aware, NSS plays a major role in the curriculum in developing the personality of and an attitude of service and humility in the students. Many programs are being conducted wherein experts from different walks of life address the student community to create awareness on the various aspects like Education, Career guidance, medical and other social & Skill Development options.

With this continued objective, we (our volunteers along with coordinators) propose to visit your old age home on 26-09-21. The idea is to create awareness among the young minds about the need to take care of the elderly and also come to know first-hand challenges faced by the Head in running a service-oriented organization like yours. During the visit we would like the students to become aware of the circumstances under which the people are accommodated at the home.

We are looking forward to your consent and thanking you in the meanwhile.

ECO CLUB

Eco clubs in Saranathan College of Engineering aims at having a Clean Green Campus. It is a forum through which students can reach out to influence, engage their parents and neighbourhood communities to promote sound environmental behavior.

Through the Eco Club, Our College motivates the students

- To keep their surroundings green and clean by undertaking plantation of trees. Promote ethos of conservation of water by optimizing the use of water.
- Cultivate the students to minimize the use of plastic bags, not to throw them in public places as they choke drains and sewers, cause water logging and provide breeding ground for mosquitoes.

- Our club emphasizes the students against use of loud speakers and educate the students not to use crackers and fire works
