Sir,

Saranathan College of Engineering, Tiruchirappalli was started in the Year 1998 and continues to deliver quality technical education through affiliations with Anna University, Chennai.

As you are aware, NSS plays a major role in the curriculum in developing the personality of and an attitude of service and humility in the students. Many programs are being conducted wherein experts from different walks of life address the student community to create awareness on the various aspects like Education, Career guidance, medical and other social & Skill Development options.

With this continued objective, we (our volunteers along with coordinators) propose to visit your old age home on 26-09-21. The idea is to create awareness among the young minds about the need to take care of the elderly and also come to know first-hand challenges faced by the Head in running a service-oriented organization like yours. During the visit we would like the students to become aware of the circumstances under which the people are accommodated at the home.

We are looking forward to your consent and thanking you in the meanwhile.
