

# **SARANATHAN COLLEGE OF ENGINEERING**

(Approved by AICTE, New Delhi, Affiliated to Anna University, Chennai-25)

## **6.2.1. The institutional Strategic/ perspective plan is effectively deployed**

### **IMPLEMENTATION AND OUTCOMES**

#### **Implementation**

We provide the following training process. A constant review and adapt methodology is followed to help us update the system and reach the aforesaid goals and objectives:

- An internal Aptitude, Reasoning, and Verbal (ARV) training right from III semester and periodical assessments for the same to evaluate students' performance.
- As part of the regular academics an internal coding training by the faculty of CSE and IT, right from V semester. Since the industry perception is that the screening process of Infosys is about the most thorough one, our training adheres to the syllabus prescribed by Infosys for the InfyTQ certification.
- An outsourced 8-day ARV training in the beginning of VII semester.
- An outsourced 5-day training on Vedic Maths in the beginning of III semester.
- Student Development Programs(SDPs) through mock face-to-face interviews. SDPs help students acquire knowledge on resume writing, self-introduction, interview presentation skills etc. The SDPs help the students to identify areas they need to improve upon and also areas of strength that they need to build and enhance.
- Special Internal Technical trainings for helping students get through Hackathon like contests. (InfyTQ/HackWithInfy/TCS CodeVita)
- Subscribing to Interview Question Bank Portals and providing access to the students. This provides the students access to hundreds of company specific online tests(both IT and Core companies).

# **SARANATHAN COLLEGE OF ENGINEERING**

**(Approved by AICTE, New Delhi, Affiliated to Anna University, Chennai-25)**

- 10-day Infosys intensive training to capitalise on our Day-1 placement status that Infosys has accorded the Institution..
- Acknowledging the good and hard work put in by the placed students by hosting get-togethers to honor them. In these get-togethers we motivate the placed students to help and energize the unplaced students.
- Encouraging students to apply for internship program using forums like Internshala.
- Arranging motivational talks by experts/alumni to guide students and prepare them to appear in competitive exams like GATE.

## **Outcomes**

The careful execution of the activities listed above has helped us obtain the following outcomes:

- The number of students placed through the campus interviews is continuously growing.
- The number of students placed through coding contests has grown after the special training.
- The number of students undergoing internship programs is also consistently increasing.
