**Annual report of activities of IPEDC for
The Academic year 2022-23 (June 1, 2022 to May 31, 2023)**

Members of IPEDC

Chairman	:	Dr. D. Valavan, Principal
Coordinator	:	Dr. R. Natarajan, Head, R & D
Patent attorney	:	S. Diwakar, Factum Law Advocates, Chennai

Members from Departments

Mechanical Engineering	:	Dr. G. Mahesh
Civil Engineering	:	Mr. A. Anandraj
ECE	:	Mr. K. Malaisamy
IT	:	Mr. R. Rengaraj
CSE	:	Dr. P. D. Sheba Kezia Malarchelvi
ICE	:	Dr. M. Shanmugavalli
EEE	:	Dr. M. Marimuthu
Management Studies	:	Dr. V. Mahalakshmi
Humanities & Science	:	Dr. L. Muruganandam

MoU with 4A IP – A new IPR Regime at Saranathan

IPEDC conducts periodical meetings to discuss issues related to IPR and this year IPEDC is very successful in signing MoU with the IPR firm **4A IP solutions, Altf Expressway, 7th Floor, Express Trade Tower 2, Sector-132, Noida, Uttar Pradesh – 201301**. Signing of this MoU marks the beginning of a new IPR regime in our college. This year onwards for **all patents the college will be the applicant while the students and or faculty members will be inventors. The entire expenses for prior art search, patent drafting and Government fees will be paid by the management.** Hence, the faculty members and students are free from financial burden involved in the IPR activities. The MoU is initially for five years and may be extended.

Assignment of rights of a registered design 12-December-2022

The right of the following registered design was transferred to Mr. ANAND SUBBIAH, Tiruchirappalli. The assignment of all rights was executed via an agreement on 12-December-2022.

Registered design titled **3 LEGGED COMPASS FOR MAKING ELLIPSE** registered under the Designs Act, 2001 under no. **350019-001** dated **23 /09/2021** and granted under Certificate No. **104649** dated **11/11/2021** in favour of (1) Dr. G. Mahesh, Associate Professor, Department of Mechanical Engineering of Saranathan College of Engineering, (2) Dr. N. Baskar,, Professor, Department of Mechanical Engineering of Saranathan College of Engineering, (3) Dr. S. Sathyanarayanan, Assistant Professor, Department of Mechanical Engineering of Saranathan College of Engineering, and (4) Mr. A. Anandraj, Assistant Professor, Department of Civil Engineering of Saranathan College of Engineering.

Special Lecture by a Patent attorney 24-February-2023

Mr. Jalvath, Head of Legal Service, ARHALEX, Bangalore Addressed the staff members and interested students on patents. As the speaker himself is an engineering graduate who is practicing IPR law it was very interesting. He explained when an invention be patented and gave examples. The session was very interactive wherein students asked quite a lot of questions. At the end of the session the invited speaker himself commented, “This is one of a rare event where the audience posed more questions”

World IPR Day: 26-April-2023

The world IPR day was observed by organizing a lecture on IPR by **Mr. R. Srinivasan, Founder President, 4A IP solutions, Alt Expressway, 7th Floor, Express Trade Tower 2, Sector-132, Noida, Uttar Pradesh – 201301.**

The function started with the invocation. The welcome address was Dr. R. Natarajan, Coordinator, IPEDC, Head, R&D introduced the chief guest. The theme for the 2023 celebration of World Intellectual Property Day is "Women and IP: Accelerating Innovation and Creativity," emphasizing the crucial role of women in propelling innovation and creativity forward.

The chief guest, Mr. R. Srinivasan, Head, 4A IP Solution, IPR Service Company, Noida, UP delivered an enlightening lecture about the patent filing. The address is about ‘Patent to Product’. The speaker elaborated about what is an IP, patent in designs and design patent. He explained clearly the design and utility patents. He also the patentability of an innovation and the three basic needs for an innovation to be patented namely novelty, non-obviousness and commercial value. He also outlined the need for copyright on individual lecture and e-contents. Also, he advised the students to patent their idea before presenting in a conference or a Hackathon.

Dr. R. Natarajan, Coordinator, IPEDC, Head, R&D enlightened about who are the true and only inventors, general guidelines, forms and agreement and steps in filing patents. On the World IPR Day (26/04/2023), Saranathan College of Engineering has signed an MoU with 4A IP solutions, the IPR service company. This MoU has opened a new chapter for IPR activities

in our college. It was announced that the expenses on patent drafting and prior-art-search will be spent by the college management itself. The inventors may submit en number of inventions and designs to the college Intellectual Property and Economic Development Cell (IPEDC). In case of patents, the most expensive part, namely the prior-art-search will be carried out through 4A IP solution and inventions identified and as patentable will be drafted and filed. Except the government fees of Rs 1700 all other expenses on patents and designs will be borne by the management. The program came to an end with vote of thanks by Department of Mechanical Engineering and concluded after National Anthem.

SARA INNOVATION DAY 2023: 23-MAY-2023

SARA INNOVATION DAY was organized on **MAY 23, 2023**. at Bi-decennial Block Hall from 9.30 am to 4.30 pm. It is a day to exhibit the outstanding innovations of our students who were duly recognized and awarded for their projects and exhibits by the leading institutions. As the prime aim of the day is to motivate the students to participate in such events in large numbers in the forthcoming years our college students were scheduled to witness the exhibits at various time intervals throughout the day.

The program started with invocation at 09.30 am. The principal inaugurated the session with motivating words. Dr. R. Natarajan, Professor and Head, R & D felicitated the gathering. A total of 22 teams of 76 students from the entire department participated in the event. The students exhibited their projects to all other students from I-, II- and III-year. The students who visited the projects got motivated and asked many queries with enthusiasm.

The displayed exhibits were evaluated by a team of external judges (three members) to select the best of the bests. The judges are

- 1. Dr P. MANI, Associate Professor, Department of Physics, Anna University BIT Campus, Tiruchirappalli**
- 2. Dr T. Mithila, Assistant Professor, Department of IT, Anna University BIT Campus, Tiruchirappalli**
- 3. Dr R. Ravishankar, MD Course B ricks, Tiruchirappalli.**

Organizing Committee members are:

Dr. M. Shanmugavalli, ICE Dept. Dr. R.Vjiay, EEE Dept. Mr. B. Paranthagan, EEE, Dept. Mr. A. Kesavan, ECE, Dept.	Dr. M. Ganesan, MechE, Dept. Dr. A. Mercy Vasan, MechE, Dept Mr. R. Karthik, CSE Dept. Ms. G. Sathya, IT Dept
---	--

The valediction function started at 4.15 pm. In the session the prize winners were announced by the principal. Head R & D highlighted importance converting the innovations into products'

The prize winners for the Sara Innovation Day 2023 are:

Prize	Title	Students Name	Dept	Cash Prize (Rs.)
I	Water Hyacinth Remover	Srivardhan, C. Sriram, S. Srihari, S. Sutharsh Krishna, K.A Sambuges, D.	MechE	7000
II	Trash Collecting Robot using IoT Technology	Muthu, T. Raghavi, B.	ECE	5000
III	Snap fit neck brace	Prasanna R.S. Mohamed Ajmal, M.I. Mohamed Fazil, Uthaya Sankar, V.S Sam Daniel, P	Mech	3000
	E-Voter	Vigneswaran. N., Sowmya. V., ShyamSundar, S. Vivian Joseph, A. ShalikAhamed, S.	CSE	3000

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

DATE: 03.02.2023

K-FRIDAY

The Department of Artificial Intelligence and Data Science had conducted an activity "Let's Learn Applications" under the K-Friday(Knowledge Friday) concept on the 3rd of Feb 2023 for II year Students of AI & DS at Hall No. 202 and 204 of the Bi-Decennial Block in our college. Students were asked to think of and suggest one application for each technical subject they had studied in the 3rd semester, such as Design and Analysis of Algorithms, Database Technology, Data Visualization, and Artificial Intelligence.

The event was attended by over 60 students and they actively participated and submitted their insights. All submissions were collected and evaluated on the basis of their learning skills. Ms. Muzifa Mubarak Ali and Ms. Madulika of the II year AI & DS program secured First Place, and five students were placed in Second Place: Ms. Aashifa Parveen, Ms. Abinaya, Ms. Karuniya, Ms. Hilda, and Mr. Robinson. Gifts were distributed to all the winning future professionals.

K-FRIDAY

The Department of Artificial Intelligence and Data Science had conducted a Special Session on the "Influence of GOOGLE" under the "K-Friday(Knowledge Friday)" concept on 10th of Feb 2023 for II year Students of AI & DS at Hall 202 of the Bi-Decennial Block in our college. The session was handled by Prof.S.Saravanan, Assistant Professor, Department of Management Studies, Saranathan College of Engineering, Tiruchirappalli. The key topics discussed in the session were: "Learning, Role of Google and Artificial Intelligence, Google search operators, commands and Google Follower". The aim of this session was to provide attendees with an understanding of the current state and future directions of GOOGLE along with AI technology and to examine its potential implications and ethical considerations. A total of 56 students participated and benefited from this event.

K-FRIDAY

The Department of Artificial Intelligence and Data Science conducted an activity called **"Test Your DQ (Data Science Quotient)"** under the theme of **"K-Friday (Knowledge Friday)"** on **February 17th, 2023**, for second-year AI & DS students. The on-the-spot quiz was designed to test the student's knowledge of Data Science, and around 20 students participated actively. The winners of the Test Your DQ (Data Science Quotient) under the K-Friday theme are as follows:

1. 248043 - Roshan Kumar B
2. 248038 - Pravin R F
3. 248057 - Theo Savio

Gifts were distributed to all the winning future professionals.

INTEL ONE API

"On March 13th, 2023, Saranathan College of Engineering conducted a one-day workshop on *oneAPI,* with Akshay, Intel oneAPI Ambassador leading the session. The workshop also included a live session on machine learning using *CKD prediction with oneAPI.* Around 90 students from II and III year of CSE, IT, AI&DS, and CSBS attended the workshop and greatly benefited from it. Additionally, Intel has generously agreed to *sponsor a \$1000* Hackathon exclusively for our students in May 2023. We have also created a special WhatsApp group to include all the participants, and Akshay, who is an expert in Intel oneAPI, will be providing all future support to the participants."

Headline:ADVANCED PROGRAMMING IN C++ - Reg.

In the academic year 2022-23, the DO-IT Association of Information technology department conducted a workshop from 30/05/2022-04/06/2022 for five days on the topic "Advanced programming in C++". The event was handled by Mr.Srinivasan, Technical Lead, Wipro Limited, Chennai for the third year IT students.The staff coordinator Ms.J.Sangeethapriyahelped in the smooth functioning of the event by organizing the same. The students were able to learn something new everyday as it was an interactive session. Mr.Srinivasan bridged the gap between the students and him which made the students raise more questions if they had doubts. The doubts were cleared then and there by him which was an added advantage. All the sessions didn't feel like a normal workshop since the resource person made it very engaging.The workshop washighly constructive for the students.

JUST DO IT- Roadmap to Artificial Intelligence - Reg.

In the academic year 2022-23, In commemorating Engineer's day on September 15, 2022, the DO-IT Association of Information Technology Department organised a seminar on "Roadmap to Artificial Intelligence" under the theme "JUST DO IT" for the II year students of the Department of IT of our college from 3:15pm - 4:30pm at the IT Seminar Hall. Dr V Punitha, Head Department of Computer Science Engineering, Saranathan College of Engineering was the resource. The event commenced with the Welcome Address by Ms G.Glory Nikita, II year student of B.Tech IT, followed by the lecture by the resource person, Dr.V Punitha. She discussed about the various applications of Artificial Intelligence and how Humans differ from Robots. She also explained about the Robots Eliza and Alice, their characteristics and their chatbots. She gave a real life problem and encouraged the students to develop automation ideas and to implement it in a cost effective ways. The session came to an end with the resource person answering the questions and clearing the doubts of the students who were enthusiastic in knowing more about the same. Ms G.Joanne Pranita, II year student of B.Tech IT concluded the meeting with vote of thanks and wished everyone on Engineer's Day. The students were highly benefited by this event.

Headline: Reg - Seminar on Git and GitHub

In the academic year 2022-2023, on November 17, the DO-IT Association of Information Technology Department conducted a **Seminar on Git and GitHub** by **Ratnakumar A and Naraesh Archun K - Final Year (Department of IT)** for **Third year students of IT**. This seminar commenced from 11.15 A.M. to 12.45 P.M. and it was conducted in **R.V.301**. For this seminar, a total of 46 students were participated and all these 46 members were utilized this seminar to the fullest.

SCE/IT /Silver Jubilee Elite Lecture Series / 2022-2023/

Date: 10-02-2023

Submitted to : The Secretary

Submitted through : The Principal

Submitted by : Dr.R.Thillaikarasi, Professor and Head / IT

Sub : Proposal for organizing a guest lecture as a part of the Silver Jubilee Elite Lecture Series –reg.,

Respected sir,

It is planned to invite Mr.Dharbaneshwer S J, Senior Data Scientist – Entropik Technologies, WorKEZ Coworking Space, Chennai, India are to deliver a Guest Lecture as a part of Silver Jubilee Elite Lecture Series on 17-02-2023 between 10:30 am and 12:30 pm.

The budget proposal for organizing the event is enclosed herewith.

SNo	Description	Estimated Budget
1.	Honorarium	5000
2.	Travelling Expenses – Train tickets	2000
3.	Accommodation @ Hotel Ajantha	2000
4.	Local Conveyance	500 1000
5.	Miscellaneous	500 1000 ?
	Total	11000

Estimated Budget is Rs. ^{10,000} 11,000/- (^{Ten} Eleven thousand only). Our respected Principal is requested to accord approval for the above proposal and forward the same to our Honourable Secretary for further approval.

Thanking you,

R.Thillaikarasi
yours faithfully, 10/2/23

Event Description:

Department of Mechanical Engineering, Saranathan College of Engineering Successfully Organized the Efficiency-2k22 Technical Symposium on 29th October 2022 in our college. Around 79 students from about 25 colleges actively participated in various Technical and Non-Technical Events. **Dr. G. Jayaprakash**, HOD of the Mechanical Engineering Department, **Dr. D. Valavan**, Chief Guest & Principal of Saranathan College of Engineering, Tiruchirappalli, **Dr. G. Mahesh**, Event Staff Coordinator, **Mr. C. Srivardhan**, Event Student Coordinator Inaugurated the event. Various Technical & Non-technical Events were successfully organized with the help of Event Coordinators **Ms. R. Abinaya**, **Ms. S. Radhakrishnan**, **Mr. M. I. Mohamed Ajmal**, **Mr. N. Pragadeesh**, **Mr. M. Naveen**, and event volunteers. Lunch and Refreshments were provided to all the participants in our College Cafeteria. The Prize Distribution Ceremony was organized after the completion of all the events. **Dr. G. Jayaprakash**, HOD of the Mechanical Engineering Department, **Dr. G. Mahesh**, Event Staff Coordinator, **Mr. P. V. Rajesh**, Event Staff Coordinator, and **Dr. M. R. Anantha Padmanaban**, Associate Professor felicitated the event winners with Cash Awards, Medals, and Certificates. The event was successfully completed with positive feedback from the participants.

(57) Abstract :

The main purpose of the vent holes used to escape the exhaust gas and also serving to the cast for removing heat from the mould box in sand casting. The vent holes are made by vent wire and the standard vent hole dimensions are 3mm, 5mm and 7mm diameters. The maximum percentages of exhaust gas will escape for those diameters of vent holes and after certain time the heat transfer rate is very less through the vent holes. In this invention, three vent hole diameters (according to mould boxes size) are increased and inserted the copper tube with simple motor device to improve the heat transfer rate. The copper tubes made by standard holes and top the tube is attached simple motor with fan. The high thermal conductivity of copper tube is used to observe more heat from the molten metal zone. The motor with fan works by forced convective heat transfer from the mould boxes.

(57) Abstract :

INTERNET OF THINGS (IOT) WITH AI-BASED REMOTE REAL-TIME MONITORING AND SAFETY SYSTEMS FOR DETECTING EARTHQUAKES AND FIRES. Abstract: In the big data environment, we develop personalized information of college libraries based on big data from three aspects: the overall architecture of the system model, the functional model of the system, and the design of system interface modules according to the design principles and requirements of the personalized information service system of the university library Service system design. In terms of the functional design of the platform, the service platform is divided into four levels: accurate identification of user needs based on big data, personalized customized services based on artificial intelligence, academic research and discussion space based on integrated media, and fine-grained subject resource aggregation based on knowledge. On this basis, a centralized model of individualized services of university libraries including internal and external personnel, information resources, technology, services, processes, platforms, and environment has been constructed Artificial intelligence (AI) is one of the emerging trends and applications of computing in libraries. It involves programming computers to do things, which if done by humans, would be said to require intelligence. The ultimate promise of artificial intelligence in libraries is to develop computer systems or machines that think, behave, and in fact rival human intelligence, and this clearly has major implications on librarianship. The application of artificial intelligence in the library has become pervasive. They include expert systems for reference services, book reading and shelf-reading robots, virtual reality for immersive learning among others. Although the incorporation of artificial intelligence in libraries can be perceived to alienate librarians from their users, it will probably help libraries do more rather than taking over the jobs of librarians. It will enhance their services delivery. Artificial intelligence will greatly improve library operations and services and will upgrade and heighten the relevance of libraries in an ever-changing digital society Smartphones and the Internet of Things have reached a level of maturity where they can now be used to monitor real-time settings. In recent years, considerable work has gone into building a cell phone-based earthquake early warning system. In this technique, inexpensive acceleration sensors are installed in mobile phones and used to capture earthquake activity. However, a smartphone's powerful CPU, large memory, and various sensors would be rendered ineffective if utilised solely for earthquake detection. A second concern is that the collected data cannot be used to assess whether or not a quake was caused by humans, given the majority of individuals use their smartphones during the day. The most advanced IoT technology envisions a global network of intelligent, physical objects that are interconnected. The Internet of Things (IoT) is an intriguing new technology with multiple uses, including crisis management. The Internet of Things is widely used and plays a crucial role in emergency management. Long-term, their efforts may save lives. This article will examine how the Internet of Things can be utilised to assist with crisis management. It compares and contrasts IoT-based disaster management strategies with other options now available on the market and investigates how they may be used to a range of emergencies. Some Internet of Things applications, including an early-warning system for fire detection and seismic monitoring, are exhibited. Discussions of the applications, the architecture of the Internet of Things, and the study's focus on various types of natural disasters involve a diverse array of techniques.
