## **2. Agenda**

Intradepartmental Competitions for the year 2023-24 were organized under the aegis of IQAC of the institution to enhance the technical exposure, showcase project ventures and to enrich the communication proficiency of students. Codeywood V2.O, It's Me AI Hukum and Project Expo 2k23 were the events conducted. They were conducted by the CSE department from 16<sup>th</sup> October to 18<sup>th</sup> October 2023.

## **3. Event Summary:**

### **3.1 IT'S ME - AI KA HUKKUM**

"It's Me - AI ka Hukkum" held on October 17, 2023 was an AI-themed event, featuring three rounds that brought together students from various departments, including AIDS, AIML, CSBS, CSE, and IT. Initially, over 258 teams of second, third and fourth-year students registered for the event, demonstrating strong interest.

The Kahoot Challenge was the first round, a fast-paced quiz testing their scholastic and practical implementation using Artificial intelligence. 77 teams were promoted to the next round, where 64 and 13 teams were procured through direct selection and wildcard respectively.

Followed by image generation challenge which we termed as "Anonymous challenge" to test their prompting and analytical skills by providing an AI-prompted image as stock. Candidates were insisted to generate the closest image to the image being displayed in stock using "LEONARDO AI" image generator. 36 teams were promoted out of which 26 and 13 teams were procured through straight selection and wildcard respectively.

Final round consisted of data visualization and "Coding on AI" based game named as "Maze and Code", where primary platforms being Google Collab and Hackerrank with assistance of Chat GPT and BARD. Candidates being exuberantly aspiring and resilient gave the energy for us to hold the event with high octane. Teams with better problem-solving skills and audacious analytical

thinking on the specific context hailed the event. Not denying the fact other candidates gave concrete rivalry which felt obnoxiously good during evaluation.

#### REPORT on 3 day Workshop on Solidworks

As a part of departmental activities, the Department of Mechanical Engineering had organized a 3 day Workshop on SOLIDWORKS. The workshop was held at the M.E CAD Lab from 8/05/2024 to 10/05/2024. Mr.S.Salaman Jebarsan, CADD Centre, conducted the workshop. The workshop was mainly intended for the second year Mechanical students.

The workshop began with an overview of SolidWorks, highlighting its capabilities and applications in various industries such as engineering, architecture, and product design. Participants gained insights into the user interface and the basic principles of parametric modeling. Participants were introduced to fundamental features and tools in SolidWorks, including sketching, extruding, revolving, and filleting. Through interactive demonstrations, attendees learned how to create simple 3D models from scratch.

As the workshop progressed, participants delved into more advanced modeling techniques such as sweeps, lofts, and patterns. They explored ways to optimize their design workflow and improve efficiency through parametric modeling practices. The workshop also covered simulation and analysis capabilities within SolidWorks. Participants learned how to perform stress analysis, motion simulation, and flow simulation to validate their designs and optimize performance. Throughout the workshop, attendees engaged in hands-on exercises to reinforce their learning. Guided by instructors, they worked on various design challenges and real-world projects, applying the concepts and tools learned during the sessions. The 3D workshop on SolidWorks proved to be a valuable learning experience for all participants. By equipping them with practical skills and knowledge, the workshop empowered attendees to leverage SolidWorks effectively in their respective fields. The hands-on approach and interactive sessions facilitated active learning and ensured that participants could apply their newfound expertise confidently.

Overall, the workshop contributed to enhancing the participants' proficiency in 3D design and positioned them to excel in their future endeavors. Certificates were provided by the CAD Centre to the participants. We, Department of Mechanical Engineering extend our gratitude to our college management for the opportunity to hosting the workshop for the betterment of students. Special thanks to instructors, for their expertise and guidance throughout the sessions.
