Report on Internal Hackathon – Smart India Hackathon -2020

23-1-2020

Internal Hackathon for Smart India Hackathon 2020 was conducted on 22.01.2020 & 23.01.2020. As per the guidelines given by the SIH, call for Team formation and idea submission process were put up in the Notice board. Heads of various technical departments and SIH department coordinators motivated the students to register for internal Hackathon and bring out solutions. Based on the discussions in the HODs meeting with Principal, it was agreed to conduct an Internal Hackathon at our institution with Internal Jury members and External Jury Members to select the teams that will participate in the actual SIH (to be held on 4th & 5th April, 2020). Experts were invited from Industry and Academia. Out of 70 total teams registered for Internal Hackathon, 36 were in the Hardware stream and 34 were under software stream.

On 22-01-2020, the hardware stream project teams were asked to exhibit their solutions in the Microwave and the Communication labs of ECE whereas the software stream teams exhibited their solutions in the RV Block Computer lab for the evaluation by Internal Juries.

The following faculty members acted as the internal jury for the internal hackathon.

S.NO	Names of the Internal Jury	
	Hardware Stream	Software Stream
1	Dr.M.Padmaa (ECE)	Dr.S.A.Arunmozhi(ECE)
2	Dr.V.Mohan(ECE)	Dr.S.Rajeswari(ECE)
3	Dr.S.Tamizharasan(EEE)	Dr.S.Mohana(CSE)
4	Dr.K.Rajkumar(EEE)	Prof.R.Thillaikkarsi(CSE)
5	Dr.R.Rekha(Mech)	Prof.V.Punitha(CSE)
6	Dr.M.Shanmugavalli(ICE)	Prof.R.Bhavani(IT)

At the end of the day, 15 teams were shortlisted in the Hardware Stream and 16 teams were shortlisted in the Software Stream and Student Innovation Category for the next round of evaluation.

On 23-01-2020, the shortlisted teams presented to the external experts who carried out the evaluation (2 experts for Hardware Stream and 3 experts for Software Stream).

External experts were:

S.NO	Names of the External Juries

Out of 15 teams, 2 teams were shortlisted while 2 teams were put under waiting list category in the Hardware Stream.

Out of 16 teams, 4 teams under Software Stream, 1 team under student Innovation Category were shortlisted. 2 teams were declared under waiting list.

Valedictory function was conducted on the same day (23-01-2020) at MBA conference Hall at 3:30pm. The valedictory function began with an Invocation. Our Respected Principal welcomed the gathering and introduced the External experts to the Student Contestants, the HODs and the Members of the faculty. Shortlisted teams of the Hardware Stream were declared by Dr.K.V.Shriram, Assistant Professor of Amrita School of Engineering. He also shared his views. Mr. Mathan Sakthivel from Infosys declared the list of 4 + 1 shortlisted teams along with 2 teams for waiting list. He also shared the opinions of the External team of experts on the quality of works carried out by the students. Dr.P.Shanmugapriya, SPOC-SIH 2020 proposed the Vote of thanks. The Valedictory function concluded with the National Anthem.

ACM 3rd NATIONAL LEVEL WOMEN HACKATHON - 2018

The CSE department is happy to share that one of our final year girls team's project has been selected under the topic "Sustainable Smart Society" for final round of "ACM 3rd National level Women Hackathon" organized by ACM-W (Title Sponsor), Ahmedabad University (Venue Sponsor), Oracle Academy (Golden Sponsor) and TCS (Silver Sponsor).

For this Hackathon, 500 projects were submitted from all over the nation, out of which 25 were shortlisted for the second round, based on the innovation of the projects and technology used of which, we were one among them.

Our team from the department of CSE faced a technical SKYPE interview and handled complex questions from the technical panel. From the 25 shortlisted teams, our team AVANI made through the round and placed itself among the 10 selected teams for the final level.

From the 500 projects submitted and through three rounds of filtration our team's project made it through the top 10 of the nation.

The other nine teams were from the following institutions- TKM College of Engineering (Kerala), Ahmadabad University (Ahemedabad-3 teams), Goa University (Goa), Netaji Subash University (Delhi), Amrita School of Engineering (Coimbatore), Veeramata Jijabai Tech. Institute.

The final National level round was held at School of Computer Studies, Ahmedabad University, Gujarat on the 7th and 8th of October, 2018.

The team (Padma Pooja K.N, Sharanaa Fathima .S, Samyutha .J) along with their mentor left on the 5th of October to take part in the competition with the strongest support from our management .The team received their topic "HEALTH AND FITNESS" on the spot and started working at 9:00am on October 7th , after a 24 hour long stretch of time combined with periodic panel presentation and constant implementations of changes asked by a team of judges, the team completed their project on the morning that followed, 8th October,2018.

Despite heavy competition from all over the nation, our students proved their technical acumen as they gloriously won the best innovation award after a 40 minute review and interview by the jury.

To add to our delight, on return, our Hon'ble Secretary sir and our beloved Principal appreciated and recognized our team with special awards and appreciation.

This success owes its credit to the endless support of the management, our principal and the entire fraternity of Saranathan College of Engineering. We extend our heartfelt gratitude for the same.

Team FLUX - JARVIS

Design and Manufacturing of an All Terrain Electric Vehicle for SAE -EBAJA competition

Our Team Jarvis, consisting of a few dynamic students (list below) from our college, was shortlisted for the E-BAJA competition conducted by the Society of Automotive Engineers that was held at Chitkara University, Punjab on 15-07-2017. It was indeed a matter of pride for all of us in our institution that, out of the many institutional teams competing on a nationwide basis, our team secured the 28th place at the country level and the 6th place in Tamil Nadu. The final prototype working model was presented to the jury members by the end of December 2017.

The students have built a highly efficient Electrical All-Terrain Vehicle (E-ATV). They started the process by first building the Roll Cage with the standard material procured. After this set up, some of the components which constitute the major part such as the Suspension, Brake systems, Electrical Kit etc were constructed.

The contagious enthusiasm of the team attracted willing sponsors to the project. Sponsors like MPM, Black Thunder, KR fuels, RBS, Honda, CADD centre, Riveraa Computers, Hero, LA Cinemas, Vasant Traders, Sri Chakra Tyres and Universal Tread partially underwrote the costs .

After days of rigorous efforts the students successfully completed the manufacturing of the Electrical ATV. Their hard efforts and the faith that the whole college and the sponsors had on the team didn't go into vain. They were one among the 14 TN teams that cleared the Technical Inspection in the first attempt.

The team believed that “Go Green” and “Make in India” were initiatives that would be the beacons of hope for an ecologically friendly sustainable future. The design and manufacture of this E-ATV by our team Flux-Jarvis at the E-Baja would be one of the baby steps towards reaching that future goal. The team bagged Rs. 50,000/- as the subsidy for clearing the technical round.

Respected Sir,

Sub: Request for the award of OD to the BEC aspirants,
sanction of lab requirements and approval for hospitality to the trainer.

The Business English Certificate course examination on vantage level is scheduled to be conducted on 7th & 8th of September 2018 on our college premises. 57 students from various branches have enrolled for the examination and been attending training for two weeks conducted by the department of English. I have attached a list of lab specifications required to conduct the examination.

Besides, the ebek (examination conducting agency attached to the Cambridge University) has graciously consented to give the BEC aspirants one-day training on an overview of the examination on 06-09-2018. In this regard, I request that the lab requirements may be approved and sanctioned for the smooth conduct of the examination and the student-examinees may be granted

OD for the training on 6th of September as well as the examination on 7th & 8th of the same month.

Besides, we have a further request to you that the trainer from outside on 6th of September may be provided lunch with refreshments for both the morning and evening sessions.

Note: The name list of the students attending the training and examination has been attached with this letter for your notice.

Sir,

This is to your kind notice that the BEC examination on Vantage level was conducted on 7th & 8th September 2018 for the students of various branches in our college premises. Results were published last evening. The total number of students appeared for the examination is 57. 52 students have cleared the examination at various levels. Though the result is moderately good, our destination is a little far away. We assure you that our students' performance and the results of the BEC examination in future will be on the rise. The result copy has been attached with this report.

Thank you very much for your support, Sir.

Sir,

This is to your kind notice that a three-day 'BEC' training programme on vantage level was organised for the BEC aspirants from 08-03-2016 till 10-03-2016. The total number of 51 students from various branches attended the training. The training covered all the four skills namely Listening, Speaking, Reading and Writing and gave the students a great exposure to business contexts. The training was well received by the trainees. The training came to an end with a special address by Prof. Iyer Gopal, Head, Training & Placement. The students were encouraged and motivated to perform well in the main exams scheduled for 17 & 18th of March 2016.

With regards,

A. Narayanan 12/3/16

Respected sir,

The BEC examination on vantage level was conducted for our students on 17& 18th of March in our college premises. Results were published yesterday. 51 students registered and trained but only 50 turned up for the examination. That one student had been down with chicken pox, so she could not take the examinations. The results for two II year students have been withheld. On making enquiry about it, I was informed that due to technical snag, the results of the two candidates are pending and I was assured that within a week, the results would be published for those two students also.

Most importantly, all the 48 students have cleared the examinations successfully, though the grades they have secured are not very satisfactory. I have attached a brief report of the results for your kind perusal.

Sincerely yours,
A. N. 29/4/16

Respected sir,

We have planned to conduct Sara-APP-Mania-2k19 for our students under Computer Society of India on 02.03.2019 .The contest aims at updating the innovative ideas, knowledge in recent technologies and intellectual capacity of the students. Hence to make the students to have the basic knowledge regarding android studio which is used to develop the application and many of our students have registered in AICTE smart IndiaHackathon-2018 program, a one week workshop (07.12.2019 to 12.12.2019 Time: 5:00pm to 6:30 pm) is planned to be conducted through Dot Code Club community, headed by Students and assisted by staff members. The willing students list who are interested to take up this program and the schedule for the workshop is attached here with.

Yours Sincerely,

(Dr.S.Mohana)

Technical Seminar on “Software Testing and Agile” - Report

Infosys Campus Connect program of Saranathan College of Engineering organized a Technical Seminar on “Software Testing and Agile” on 25th July 2019. Mr. Mukesh Sekar, Member - Education, Training & Assessment, Infosys Campus Connect Program, Mahindra City Development Centre, Infosys Ltd., Chennai, handled the sessions. Nearly 100 pre-final year students of CSE and IT took active participation.

The session started with the introduction to Software Testing and different ways to ensure that the software system is defect free. He also spoke on the classifications of testing such as Functional testing, Performance testing, Regression and Maintenance testing. Then he categorized and explained functional testing into Unit testing, Integration testing, Smoke, UAT (User Acceptance Testing) and Non functional testing into Performance, Endurance, Scalability, Usability. He explained Agile development by correlating with the literal development process in Infosys.

Mr. Mukesh Sekar, insisted strongly on the different types of software requirements that are needed to analyze the process of Software Testing. He suggested that the requirements must be in .xls (MSExcel) format so that it will be easy for the tester who will be testing the software in near future. He explained the statistics of employability in Development and Testing. Finally, he concluded by feeding tips to frame a resume of our own to appear for an interview and to succeed.

Mr. Mukesh Sekar, greatly appreciated the students for attending the technical seminar enthusiastically. He also rendered thanks to the management for providing him an opportunity to deliver a session among our students.

Technical seminar on “Applications of Machine Learning and Basics of Statistics” - Report

As a part of Infosys campus connect program of Saranathan College of Engineering, a technical seminar on “Applications of Machine Learning and Basics of Statistics” was held on 05.10.2018 at MBA Seminar Hall from 9.30 a.m. to 12.45 p.m. Ms. Gajalakshmi, Consultant, Data and Analytics, Infosys Ltd. and also an alumni of our college delivered the lecture. Faculty and Students of Computer Science and Engineering and Information Technology 3rd year attended the lecture.

The talk focused on introducing the concepts of Machine Learning, Artificial Intelligence, Data Analytics and its application to the students. It also focused on encouraging the students to do project related to this domain.

The lecture was followed by interactive session and in that how machine learning and deep learning algorithms are used in order to help organizations to understand their customers and finally create their products and services for their customer needs were discussed.

She mentioned the efforts of the management to bring her for a session and appreciated the students for their interaction.

Technical Seminar on “Machine Learning Techniques” Report

Infosys Campus Connect of Saranathan College of Engineering organized a technical seminar on “Machine Learning Techniques” was held on 20.01.2018 from 9.30 am to 4.45 pm at MBA Seminar Hall. Mr. Selvakumar, Project Leader, Infosys Ltd., delivered a session on how a data analytics technique teaches computers what to do?. He also focused on Machine learning algorithms that use computational methods to “learn” information directly from data without relying on a predetermined equation as a model.

He also quoted certain algorithms that adaptively improve their performance as the number of samples available for learning increases. He concluded that [Deep learning](#) is a specialized form of machine learning.

I-Gear Up Programme

As part of Infosys Campus Connect of our Institution, Mr. Roy Antony Arnold George Charles Senior member ETA, Infosys Ltd. Chennai DC, delivered one day I-Gear Up Session on LEX based Foundation Programme specially for Infosys Recruits.

He discussed the various modules such as programming fundamentals, object oriented programming, data structure and algorithms and Database Management systems present in Infosys LEX platform. A total of 43 Non CSE-IT Students actively participated and made the session more interactive.

Added to that he discussed the following

1. Total number of hours needed to be spent for completing the assignments that are present in various modules of LEX based FP platform.
2. Format of the question paper that may asked/set for the recruits once they enter into Mysore DC.
3. Benefits of clearing the FP exam in their first attempt.

Seminar on “Agile Project Management” - Report

As a part of Infosys Campus Connect Program of Saranathan College of Engineering, a technical seminar on “Agile Project Management” was held on 23.09.2017 from 9.30 am to 4.45 pm at JS Block Seminar Hall. Mr. Jaydip Das, Project Manager, Infosys Ltd., delivered a session on “Agile Project Management”. He focused on a few common questions such as design, coding, unit testing, integration testing, acceptance testing and expertise.

He explained clearly the seven Agile project estimation techniques such as Planning Poker, T – Shirt sizes, Dot Voting, The Bucket System, Large / Uncertain / Small, Affinity Mapping, Ordering Method.

It was discussed by the speaker on how to Calculate Budget in Agile. Calculating Budgets play an important role in Agile projects. This is done to make sure what the actual budget provided is, how much more budget is required and how we are going to divide the budget for different product backlog items.

He also explained how it uses the data collected from the previous projects and uses the mathematical formula to get the estimated budget for the current project.

Webinar series on "ABCD of New IT foundations"

The screenshot shows an email interface with a sidebar on the left containing folders like 'Inbox' (3,546), 'Starred', 'Snoozed', 'Important', and 'Sent'. Below these are sections for 'Meet' (Start a meeting, Join a meeting) and 'Chat' (Ms.K.Mohanapr, No recent chats). The main email window displays an invitation from 'MR.ARUN PRASAD CSE' to 'csestaff, itstaff, Sahaaya, Sumathi'. The subject is 'Webinar series Invitation-Reg'. The body text states: 'The Infosys Campus connect program organizes webinar series on "ABCD of New IT foundations" from 5th August 2019 to 10th August 2019 and 13th August 2019 to 14th August 2019 for Third year CSE and IT (Top 15 Rank) students are invited to participate for this webinar series. Third year class coordinators of CSE and IT kindly inform to the students and ensure their presence for all the above days. Note: On August 5th venue at CSE Seminar Hall. Remaining days : venue at Civil seminar hall. Time: 10.00 am to 11.30 pm'. The bottom of the screen shows a taskbar with various application icons and a system tray with the date '6/2/2020' and time '5:43 PM'.

Dear Professors

I am happy to inform you that because of our colleague Dr. Rajarajeswari, our alumni Mrs. Jayashri Padmanabhan, Director of Engineering at Pearson's Education, California, US, has consented to present a webinar on "Testing and Automation" on 09.02.2018(Friday) at 10 AM in JS Seminar Hall. Let us all enjoy that proud moment.

Thanks and regards

Minutes of mentor meeting with adopted students

Name of the Mentor: Dr.C.Vennila, Assistant Professor, ECE

The meeting was conducted on 10.07.2019 In the IC lab during Lunch break.

The following points were discussed in the meeting:

1. Students were advised to strictly follow the dress code instructed by the HOD/ECE.
2. They were advised to attend the classes regularly and to be punctual for the classes.
3. Their academic and personal details were discussed and they were asked to fill up their academic details, co curricular and extracurricular details in their white log book.
4. They were advised to perform well in the IA test1 in this semester.

Students Journal of Electrical and Electronics Engineering (SJEEE)

It is widely observed that students who participate in symposiums, conferences etc have a practice of presenting papers without traversing the necessary path. Normally students indulge in copy paste work and inculcate the practice of plagiarism knowingly or unknowingly in their very beginning stage without realizing the serious implications of such acts. The research cell of department of EEE intends to make the student realize that publishing a paper is a consequence of several actions and efforts taken over a period of time and not an action by itself. Also it is desired to inculcate the best practices of engineers among the students in their very beginning stage. In this perspective, the research cell of department of EEE has taken an initiative to publish a new e-journal exclusively for students with the following objectives.

Objectives

- To provide a platform for the students to submit papers based on their original work
- To cultivate interest in students to execute simple projects relevant to their curriculum and appreciate their significance
- Encourage students to develop their indigenous capability as well as enhance their technical writing skills
- To eradicate plagiarism in the very initial stage of one's career
- Expose students with an well defined path for getting a publication

The journal is named as sjeee (Students Journal of electrical and electronics engineering). The journal will start publishing one issue per year. All the students are encouraged to submit their original article based on their analytical/simulation/hardware work in the area of electrical and electronics engineering.

Workshop on MYRIO interfacing using LabView association with NI Instruments 27.6.2017- 1.7.2017

Objective of the workshop

To train the students to develop prototype using test, measurements and control using computer based design

Target Audience

Students who completed core1 and core2 NI labview course

Course content

• Introduction to LabVIEW, Data types – Number , Boolean , Strings
• Datatypes – Arrays , Clusters
• Simple programs using numerical platelet
• Loops – For , while , stop if, continue if
• Case Structures – Default , condition, Enum – cluster of variables
• Waveform Graphs & Waveform Charts – 1D,2D,3D,Variables – Local, Global, Function, Sequence Structures – Flat , Sequence,Dialogue Boxes – Single button , double button
• State Machine – Enum, Shift Registers, Case structure , While Control customization – Invoke node , Property node,Event Structure – based on mouse movements ,File I/O – Sub VI
• Queue – FIFO, memory allocation,Single and Multiple Channel,Potentiometer – varying voltage program,Temperature Sensor – sensing temperature using LM35
• Function Generator – generating different signals for the required purpose
• Counters - monitoring quadrature encoders, event counting, period measurement, pulse generation, pulse-train generation, two-edge separation measurement,
• Elvis Board – block diagram , pin diagram , port usage
• Timed Loop – use of timers in loops ,MyRIO – Introduction , Architecture
• Kit explanation – Xilinx , FPGA , Ports , Wifi,Programs – Traffic light controller, Seven segment LED display

ABSTRACT

The main objective of this work, focused on development of multi user remote system which encompasses IoT technology with Raspberry-Pi. In specific, IoT based controlling and monitoring is applied to double pipe heat exchanger, a thermal device. Heat exchanger is a device in which transfer of heat takes place from one high temperature fluid to another low temperature fluid. Monitoring performance of such heat exchanger using networking is a trending research area for heat exchanger based researchers. Heat exchanger assembly consists of two inputs such as hot water inlet (T1) and cold water inlet (t1). Two outputs such as hot water outlet (T2) and cold water outlet (t2). IoT system proposed in this study is capable identifying deviation of such input and output parameters from normal operating mean. It is also capable of monitoring heat exchanger performance via inaccessible (private) firmware running on the cloud. This approach utilizes multi-disciplinary technology such as embedded system with PIC which in turn communicates with cloud-centric server profile through (R-Pi) based python system.

1. Introduction

Recent trend of automatic data exchange in factory environment is given with a name smart factory. Such a factory is characterized by resource efficiency, adaptability and ergonomics. It is the integration of business partners in business, customers and value processes. Its strong and base techno foundation consists of the Internet of Things (IoT) and cyber physical systems. With implementation of IoT to any device or machine, following advantages can be experienced. (i) tracking the quality is very easy, (ii) reduction in amount of time spent for monitoring, (iii) easy to make right decision, (iv) flexible operations etc.

Industry 4.0, an industrial revolution framed with a mission of automating each and every industry environment. Recent researchers working with cutting edge technologies of all engineering and science branches are driving their work towards integration of automation. Various applications of IoT based controlling and monitoring in commercial and non-commercial environments are listed in Table 1. In this study we proposed an IoT based monitoring and control system for the most promising industrial thermal device double pipe heat exchanger. Applications of heat exchangers are found in

Thu, Feb 1, 2018, 3:34 PM

Dear Colleagues,

SalesForce (Multinational US based company) in association with ICT Academy is organizing 24 hours, non-stop "Learnathon" for the students of 100 Higher Education Institutions across the country - Our Institute is being one of them. 100 students from each of these colleges participate in this contest. In this contest the students have to self-learn various modules that are on the SalesForce cloud through the internet and earn points and badges that would be awarded to students who successfully complete the modules and the corresponding assignments. Based on the performance of the students in this contest, the best three students at the Institution level and the best two students at the National-level will be rewarded with certificates of excellence and Cash vouchers. Also Based on the total number of badges, best institution will be selected.

The contest will start at 10.00 a.m. on 2nd Feb and will continue up to 4.00 pm on 3rd Feb. The students will have to stay back during 2nd Feb night and continue participating in the contest. It is indeed a rare opportunity for the student to participate in such a challenging contest.

Invitation and the list of participating students are attached. All are Welcome!

Date: 07/09/2018

Name of the Student : S. BABU

Batch No. : 197063 Semester: 05

Name of the Programme : Still development programme

[Guest Lecture/Seminar/Workshop/Conference/Training/Ind. Visit/ Others]

Resource person : Shri. B. Sankaran.

[Name with Designation] Ex. R. Suresh.

Ex. M. Subash.

Feedback about the Programme

* This program was very useful for learning.

* They conducted Quiz comp. & Motivational speech was very interesting.

Marking and Mix Design

→ In Marking, they taught the 3,4,5 formula, (Right angled. 90°).

⇒ Concrete mix and mixing competition were been learned very well.

Nominal ratio - with help of ratio we constructed L-structure and U-structure.

Vision

- To become a leading department of Higher Learning and a Research Center of Excellence in Electronics and Communication Engineering.

Mission

- To enable budding engineers to obtain technical exposure in various areas of Electronics and Communication Engineering.
- To nurture career improvement.
- To initiate and sustain research activities in the department in cutting edge areas of Electronics and Communication Engineering.
- To develop professional and ethical attitude in the students.

Programme Educational Objectives

- To provide the students with a strong foundation in the required sciences in order to pursue studies in Electronics and Communication Engineering.
- To give a broad exposure to the students in various topics related to Electronics and Communication Engineering fields.
- To develop the innovative skills in the students in order to solve the problems those are likely to arise in their professional life later.
- To inculcate in the students a professional and ethical attitude and an ability to visualize the engineering issues in a broader social context.

Program Specific Outcomes

- Comprehend and demonstrate the principles and concepts of Semiconductor theory, Signal Processing & Embedded systems in the fields of Consumer Electronics, Medical Electronics and Defense Electronics.
- Apply emerging Information and Communication Engineering Techniques to solve real time problems.

SUB:INTERNSHIP COMPLETION LETTER

We are glad to inform you that Mrs. Aayisha Siddika from Saranathan College of Engineering, Trichy, has successfully completed her internship at Nile Automation Systems Arabia from 01st Dec 2017 to 20th Jan 2018.

During her internship, she was exposed to the various activities in Automation product and services division.

We found her extremely inquisitive and hard working. She was very much interested to learn the functions of our core division and also willing to put her best efforts and get into the depth of the subject to understand it better.

Her association with us was very fruitful and we wish her all the best in her future endeavors.

To
Subasree S.
42, Sabari illam, Sanjeevi Nagar Main Road, Tirchi-620002.

Dear Subasree S,

We are pleased to inform that you have been selected to undergo an internship at Yashika Industries, and invite you to join us on 23rd DECEMBER 2015.

The period of internship would be 6 months without stipend, however there might be a pay based on performance directly proportional to the value of work completed during the given period.

Our Internship program is basically been designed to evaluate fresh engineers and hire quality resources only based on performance & personal values, subject to availability of an open position. This transfer could happen anytime within your internship post course completion.

We would also like to stress upon that we would want every person working with us to be very high on performance as well as human values, we intend to pay our employees the best remuneration above industry standards – which can be accomplished only by maintaining high performance and values.

This internship offered to you is subject to termination without notice, if found to be violating our value system or in hindrance to the performance of other employees. You shall not leave the job in the interim of the commitment period.

Internship certificate will be provided only upon successful completion of Internship or after signing a hire agreement with us.

You will have to sign in a non-disclosure agreement upon joining us and shall not discuss or disclose any information related to our company customers or suppliers depending upon the confidentiality classification of the information.

We understand that you have not signed up for employment till date and shall not take up employment or accept an offer for employment with any other company without notifying us in writing, since we plan to offer you a permanent role in our organisation, however not guaranteed and will be based on your performance.

Your pay post joining us on a permanent role will be purely based on your performance and will be offered on a different offer letter post our decision to hire. Sign a copy of this letter and return it to us as an agreement to this offer and the terms given above. Wish you a great career launch with Yashika Industries.

Thanks & Regards

Back to basics

The financial year commenced with Birla Sun Life Mutual Fund and *Outlook Money* visiting the Department of Management Studies, Saranathan College of Engineering, Trichy for a financial awareness workshop. Final year MBA students who participated in the session were inquisitive to know about the future job prospects in the financial services. A bunch of about 60 students under the guidance of Dr.K.Karthikeyan, Associate Professor & Head participated in the discussion with several questions posed to K S Rao, Head – Investor Education and Distribution Development, Birla Sun Life Mutual Fund, S Gururaj, Head -Training (South & West), Birla Sun Life Mutual Fund and Narayan Krishnamurthy, editor, *Outlook Money*.

The students were keen to learn ways to invest money in a safe and secure manner through mutual funds. The conversation veneered towards career prospects and most of them wanted to explore ways to be part of the financial services industry by qualifying to be distributors of financial services. The fact that students intend to spread financial awareness in smaller centres around their vicinity was an encouraging sign that such initiatives are working at the grass root level. Investor awareness is a work in progress and our mission. If you are interested in having such a program in your institute; write to nk@outlookindia.com

Saranathan College of Engineering

[Click here](#)

The Computer Science and Engineering (CSE) discipline was started in 1998 with an initial intake of 40 in UG programme (BE - CSE) to meet the demand for well-qualified computer professionals. Subsequently the department upgraded its intake from 40 to 60 in the year 2000, 60 to 120 in the year 2011.

Our Department is an active Member of the Computer Society of India (CSI) Students Chapter. The Department with its cohesive team of faculty members, offers a sound program at the UG level. The curriculum is a blend of the conventional and theoretical. It is based on the curriculum of the Anna University-Chennai and keeps up with the growing demands and the changing trends of the software industry and research laboratories. Core courses include Programming Languages, Computer Architecture, Database Management Systems, System Software, Networking Technologies and Artificial Intelligence.

State of the Art computer facilities are provided by the Computer Center, Computer Support Group (CSG). One

About Ministry of Jal Shakti

The Ministry of Jal Shakti was recently formed in May 2019 with the merger of the Ministry of Water Resources, River Development & Ganga Rejuvenation and Ministry of Drinking Water and Sanitation. This Ministry is the driving force behind some of the most effective initiatives in recent times such as 'Jal Shakti Abhiyan' and 'Ganga Action Plan' among others.

CHALLENGES

Innovative ideas and solutions were invited for composite and affordable solutions for Accessible Toilets. The solutions were to be built along the lines of affordability, compactness, flexibility of use & design and scalability to suit variable area requirements. Demands of different disabilities, geographies, age groups, genders and cultures have to be kept in mind. Specifically, issues of wheelchair users, amputees, visually impaired and conditionally disabled (person with fracture, pregnant women, lactating mothers, elderly etc.) need to be addressed.

CATEGORIES

Solutions could either be along the lines of specific products (such as assistive devices, IT innovations etc.) or allied infrastructure (such as approach mechanism, entry/exits, fittings and control mechanisms etc) and could be developed for any one of the following 4 categories:

- Rural individual use toilet
- Rural community use toilet
- Urban individual use toilet
- Urban community use toilet

CATEGORIES OF PARTICIPANTS:

1. Startups / Early stage companies

Showcase our ideas and work with top domain experts from within the Ministry to build on your solutions. Get an opportunity to pitch to the Department of Empowerment of Persons with Disabilities, Ministry of Jal Shakti and other major Stakeholders in the ecosystem. Go from startup to scale! The Department of Empowerment of Persons with Disabilities and Ministry of Jal Shakti may partner with the winning team in developing your solution in order to create a joint go-to-market.

2. Professionals & Academicians

Showcase our idea, validate its applicability against real outcomes and convert it into a market-ready product. This is an opportunity for Industry Experts with ideas and execution plans & Technology Enthusiasts who have disruptive solutions for the sector to pitch to the Department

“DEVELOPMENT OF an IoT BASED SMART VILLAGE”

India Smart Grid Forum (ISGF) in association with Tata Power Delhi Distribution Limited (TPDDL) and Netaji Subhas Institute of Technology (NSIT) conducted a pan-India INNO-THON 2017 event as part of their India Smart Grid Week (ISGW). They invited innovative ideas that could modernize the power sector. The participants included students from IIT, BITS, NIT, other Engineering colleges, Researchers, Engineers from Utilities and the Power Industry as well as Technology enthusiasts.

Only two teams from Tamil Nadu had participated in this event. Both of them were college teams. Saranathan College of Engineering was one of those two participants. The team from Saranathan college had as members Mr.M.Ramesh, Mr.S.Sivashankaran, Mr.V.Ramkumar, Mr.E.Saran Prabhu - all from our Final year EEE branch.

Out of a total of 150 projects submitted 30 were shortlisted and invited to exhibit their project as part of INNO-THON 2017 at the NSIT, Delhi on 21st and 22nd of Jan 2017. Saranathan's project titled “DEVELOPMENT OF an IoT BASED SMART VILLAGE” was adjudged as the best project and was included for display at the “ Rooftop Solar and Energy Efficient Projects” Exhibition organized by Tata Power DDL at Rashtrapati Bhawan (President Estate) on 10th February 2017. This exhibition was inaugurated by the Honorable President of India and was a part of the first phase of a solar power project in the President's Estate that would generate 670KW electricity to meet partially the power requirements. As part of the inaugural event, a day-long exhibition showcasing various aspects of energy conservation and green energy was also held.

It is very significant to note that Saranathan's project was the only Student based project displayed in that event. Ms. N.Gayathri, (Assistant professor, EEE department from Saranathan College and the mentor for this project) along with the students presented the project on Smart village to Honorable President of India.

On the teams return from Delhi after their successful and prestigious presentation to the Honourable President , Shri.S.Ravindran Secretary, Dr. D.Valavan Principal, Prof. V.Nagarajan Director, Dr. C Krishnakumar Professor & Head EEE department congratulated the whole team for their great efforts and achievements.

SHA Astra SMART CITY CHALLENGE 2019

(S2C2)

June 25, 2015, a highly ambitious project named the 'Smart City Mission', an urban renewal and retrofitting program was taken up by the Government of India with the mission to develop 100 cities across the country making them citizen friendly and sustainable. The idea was to use the Engineering skills and knowledge of the nation to make it more sustainable and habitable.

Ever wondered how could we contribute to this ever-growing phase of development and mark ourself in the golden books of the nation. SO here's our opportunity to create a "TRUE IMPACT" and contribute to the nation building. Shastra 2019 brings us for the first time the SHA Astra SMART CITY CHALLENGE (S2C2) where we will put our ideas and solutions to solve one of the most crucial problems involved in the building of sustainable and "SMART" cities of India.

Given are the 5 different problem statements involving various aspects of the smart city concept. The task of the participant is to formulate a solution for "AT LEAST ONE" of them and come up with a circuit/model that solves the problem or at least some part of it. Registrations will be accepted based on a short write-up proposed during the registration of the event. The shortlisted teams (based on the quality and feasibility of the proposed solution) was notified and called there at IIT Madras during Shastra 2019 to present their solution (a circuit or a model) for the problem in front of the eminent judge panel that will involve professors from IIT Madras.

The following are the problem statements*:-

- Air Pollution Detection
- EK KADAM SWACHHATA KE AUR(Smart Garbage Bins)
- SMART ENERGY MANAGEMENT
- SMART PARKING SYSTEM
- Make DUMB street lights "SMART".

Smart city challenges, ways to tackle them dominate ideation contest

TEI | Jan 6, 2019, 10:34 AM IST

CHENNAI: College students from Tamil Nadu dominated the smart city challenge, an ideation and prototype development contest introduced for the first time in Shastra, IIT-M's annual technical fest.

As part of the contest, five different problem statements involving various aspects of the smart city mission, the central government's urban renewal and retrofitting programme, were given to participants.

Of the 95 students who registered from across the country, 19 were shortlisted by experts from Honeywell, a private software firm, and ET faculty based on the feasibility, cost effectiveness and project description, said A Ajaykumar, a student-organiser from IIT.

All the teams presented their ideas and a prototype at Shastra on Friday and six teams shared the top three positions. Of them, five teams were from Tamil Nadu. IIT (BHU) Varanasi was the only team from another state to win a prize. A team from Trichy shared the first place with them.

The Trichy team, from Sonanathan College of Engineering, developed an Internet of Things (IoT)-based intelligent drone transportation system. This device was aimed at assisting government and other agencies in transport and traffic management on a real-time basis, said N Muthu Karuppan, one of the students from the team.

An Article about Our Project was Published in Times of India Newspaper

Honorarium cheque received by our team N. Muthu Karuppan, A.S. Leo Aldrinraj, S. Madhanraj, G. Manoranjan and Project Mentor Prof. N. Gayathri, EEE Department from our Secretary sir for their achievement in SHAASTRA'19 Conducted by IIT Madras.

eYantra Ideas Competition eYIC 2017-2018

This competition is conducted by IIT Bombay sponsored by MHRD. It provided a platform which encourages doing Innovative projects under the field of Robotics and various domains to solve Real world problems.

The team of N.MUTHUKARUPPAN, LEO ALDINRAJ.A.S, MADHANRAJ and G.MANORANJAN mentored by Ms.N.Gayathri has been selected as one of the 18 finalist teams in National level out of 318 teams. This team demonstrated their project at e-Yantra National finals 2018 held on 22nd March-24th March 2018 at IIT Bombay. The team bagged Rs.10, 000/- as a cash prize for being the Regional finals winners.

Team FLUX - JARVIS
Design and Manufacturing of an All Terrain Electric Vehicle for
SAE -EBAJA competition

Our Team Jarvis, consisting of a few dynamic students (list below) from our college, was shortlisted for the E-BAJA competition conducted by the Society of Automotive Engineers that was held at Chitkara University, Punjab on 15-07-2017. It was indeed a matter of pride for all of us in our institution that, out of the many institutional teams competing on a nationwide basis, our team secured the 28th place at the country level and the 6th place in Tamil Nadu. The final prototype working model was presented to the jury members by the end of December 2017.

The students have built a highly efficient Electrical All-Terrain Vehicle (E-ATV). They started the process by first building the Roll Cage with the standard material procured. After this set up, some of the components which constitute the major part such as the Suspension, Brake systems, Electrical Kit etc were constructed.

The contagious enthusiasm of the team attracted willing sponsors to the project. Sponsors like MPM, Black Thunder, KR fuels, RBS, Honda, CADD centre, Riveraa Computers, Hero, LA Cinemas, Vasant Traders, Sri Chakra Tyres and Universal Tread partially underwrote the costs .

After days of rigorous efforts the students successfully completed the manufacturing of the Electrical ATV. Their hard efforts and the faith that the whole college and the sponsors had on the team didn't go into vain. They were one among the 14 TN teams that cleared the Technical Inspection in the first attempt.

The team believed that "Go Green" and "Make in India" were initiatives that would be the beacons of hope for an ecologically friendly sustainable future. The design and manufacture of this E-ATV by our team Flux-Jarvis at the E-Baja would be one of the baby steps towards reaching that future goal. The team bagged Rs. 50,000/- as the subsidy for clearing the technical round.

INTERNSHIP OFFER LETTER

Dear Kiruthika Valathy,

We are pleased to offer you an Internship opportunity as a Web Page Team Coordinator; you will report directly to Govind Garg, coordinator of Preseed.

For this position, your responsibilities will be to coordinate all the task given to Preseed Web Page Team. You would be representing the web page team during your tenure of the Internship. All tasks would be assigned to you which you would further distribute to your teammates. You would ensure that the assigned task get done timely and as expected, for this you would have the rights to suggest any correction in their design and work.

We would guide you to find people's right talent, assigning a work which suits their profile, managing multiple tasks, and to maintain the effective communication. You would report your daily updates, to the rest of our team on our #dailyupdate slack channel. You would be holding an important position as it would during your tenure of the Internship, therefore you are expected to keep up with seniors - be it however long it might take. Your Internship will commence on July 12, 2015.

This is not just an Internship but an opportunity to be an entrepreneur. What it clearly is a chance to build a company and get your hands dirty now, rather than later, a chance to engage with soulful people who are building a business the new age way.

Please confirm acceptance by writing back to us on intern@preseed.in no later than the close of the business day on July 10, 2015.

Sincerely,

Govind Garg
Coordinator at Preseed

REPORT ON DE-SILTING OF LAKE

The Honourable District Collector, Tiruchirapalli had convened a meeting on 17-07-19 with the Principals of the Private Educational Institutions on de-silting of lakes nearer to their respective institutions in Trichy District. As a Social Responsibility initiative and on a self Financing basis, Shri.S.Ravindran, Secretary of the Saranathan College of Engineering has immediately accepted and agreed to coordinate with the district administration to carry out de-silting and reactivating the lake(approximately 10 acres) that is behind our college and make it ready to receive and to store more rain water. After getting the approval from the District Administration, the college started to de-silt the lake with pooja on **31-07-19** in the august presence of Mr.Sibi Adhithya Senthil Kumar I.A.S, Sub- Collector, Srirangam, Shri.S.Ravindran, College Secretary and Dr.D Valavan, Principal. Also Heads of different disciplines, NSS Programme Officer of the college, Village Administrative Officer, Village people and college students participated in the function. The work got started on the same day of pooja and was successfully completed on 29-08-19 by de-silting 10 acres of land under the supervision of 32 NSS volunteers for the entire work. The work was completed in record time of 21 days. Now the lake is full of water and this will lead to increase in ground water level and will also serve the need of local residents.
