Senior academicians attend Virtual Technical Summit – BTS 2020

- BTS - Bangalore technical summit, one of the significant and largest technical summit of Asia was organized virtually by the Government of Karnataka from 19th to 21st November.
- Four senior academicians from our college were encouraged for participation and effective interaction in this high level Technical Summit by the Institution.
- The summit was inaugurated by honorable Prime Minister of India and he emphasize the technology transformations influencing the country and the globe.
- There were various sessions titled on Innovations , Healthcare and Biotechnology, Electronics, Knowledge hub, biotechnology, Digitized Information technology.
- Top industrialist from the country and across the globe delivered keynote address and had fantastic panel discussion.
- More focus was given on how technology plays a crucial role in transforming post Covid situations and the effectiveness of the same over Industrial revolution 4.0.
- Academicians attending such industrial technical summit, gives them idea of the current challenges and hence the opportunities for budding engineers.
- Learning is a never ending process in all professional approaches, especially in the field of teaching. It is believed that such knowledge would enhance triggering the young minds so as to convert and sharpen their thinking capabilities into sound innovative ideas. It is these ideas which could make transformations into a reality thereby making the world a better place to live..
- Academicians sincerely thank the management for giving such opportunities to be part of such high level forums.
