II. Read the following passage carefully and answer the questions. At this stage of civilisation, when many nations are brought in to close and vital contact for good and evil, it is essential, as never before, that their gross ignorance of one another should be diminished, that they should begin to understand a little of one another's historical experience and resulting mentality. It is the fault of the English to expect the people of other countries to react as they do, to political and international situations. Our genuine goodwill and good intentions are often brought to nothing, because we expect other people to be like us. This would be corrected if we knew the history, not necessarily in detail but in broad outlines, of the social and political conditions which have given to each nation its present character. 21. Feedback of theory session

We find this class very useful, as we could gain more knowledge about a particular topic, and could understand the concept in easier way. The staffs are excellent and they make us feel comfortable and their way of teaching brings us motivation, feeling maths is much easy.

Feedback of Lab session

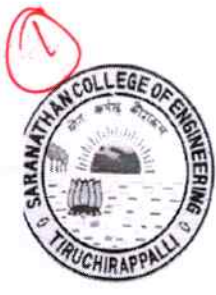

We gain lot of practise, and can find lots of useful test, which brings us more confident and crack the test in first attempt. software provided is more useful.

 Feedback of theory session

- 1) The theory session was very much understandable as the staff moves on right from the basic of the problem and goes step by step.
- 2) The theory session was very helpful to learn the basis
- 3) Much helpful in learning the basics as there was someone to whom we could clarify our doubts and also provide many shortcuts to solve.

Feedback of Lab session

- 1) The lab session is quite boring, as the test is completed very sooner and there is a lot of time remaining which was literally unused.
- 2) The Lab session is too long we complete the test earlier and simply waiting.
- 3) Lab sessions were helpful in providing 1st hand experience to practise the interview like test but the scoring for the answer was not justly given and the time was lot more than required.

1) During the discussion after the online test, the trainers (in all labs) are discussing problems that are in the work book issued to the students. The students feel that they can solve those problems on their own (or) google it. They expect the trainers to teach new ways to solve it/think outside the box.

They teach well, but they are not able to cover their part in that period of time. Otherwise its good.

Feedback of Lab session

Lab sessions are very helpful. But most of problems & concepts we faced in lab session is not taught. Discussion session is very useful for us to rectify our mistake. More than theory class, we learn a lot in the discussion session.

Feedback of theory session (FN)

The staff today who took the probability topic was very much interested in solving & making the concept clear. In that course he was running is hurry and kept on clarifying the same thing again & again. The next half of morning session we learnt many different aptitude types, that was new and helpful.

Feedback of Lab session (AN)

We were left to do a lot of solving of problems & tests today. At the end we were not discussing all the questions but only the doubtful ones, which was very useful today.
