**Report**

**Topic** : “Professional Realities”  
**Date** : 12/11/2021  
**Time** : 10am – 12pm  
**Conducted by** : Training & Placement Cell  
**Resource Person** : Mr. Vignesh Chandrasekar,  
**Mode** : Online  
**Platform** : Webex

HOD of ICE Dr.SM.Giri Rajkumar, hosted the lecture with a welcome note, and inaugurated the guest.

Followed by, HOD of Mechanical department, briefed about the resource person’s career path and introduced the guest to the audience.

Meeting was handed over to the Guest, **Mr. Vignesh Chandrasekar** who is a seasoned automotive professional with a decade of diverse work experience across strategy, Research & Operations domain. We are proud to state that such an amazing personality is also an alumnus of our institution belonging to the Department of Mechanical engineering. The entire duration of this guest lecture was such informative that our students feel that they have been enlightened towards a better career

**His objective was “How to be aware of current realities, and some perspectives of life”.**

He also discussed us on Current Realities on how people are feared about working more and hard in an industry. Due to less interest, people fail to start a career on a particular project, wishing not to get their hands dirty. Along with this Current reality he also guided the perspective on how people wish to make their career good but wishing not to work hard. Less awareness about working in a field being unrealistic. Next to it, he shared and demonstrated on how a work life need to be managed.

To energize further he shared his own carrier on how he managed success and failures, which made everyone feel motivated,

Ahaan...

#### Biggest Failures

- My academics (12<sup>th</sup> & Engineering)
- Student start-up
- Photography
- Book launches

#### Few Thoughts

- Fail Fast, Fail Forward
- Read more (books/newspapers)
- Get the basics right
- Develop skill sets (MS Office/Coding Abilities/Design Software's)
- Improve financial literacy
- Improve general awareness
- Avoid social media, (Uninstall FB, YouTube, Instagram, every time killing app from mobile)
- Appreciate silence
- Pursue a serious hobby (There is nothing called Passion, It's a myth!)
- Travel, Explore

As a Mentor he portrayed a clear vision on do's and don'ts in our career. Points he discussed were,

- Read some books
- Develop your skills regarding Problem solving
- Create and Read articles
- Advantages of Masters

He concluded his lecture with many valuable outcomes and wished everyone to lead their life positively and lead confidently.
