A guest lecture **Electric Vehicle: Revolution** for II year & III year Students was held in Saranathan College of Engineering, Trichy on 12/11/2021 under Training and Placement Cell. Around 360 Students from department of ECE, EEE, ICE and Mechanical engineering participated in this guest lecture. The session started with the welcome address by Ms.A.Shamim Banu Assistant Professor/ECE. The Session was handled by **Mr. M.P.Arul V Subramanian** (Advisor – EVQuotient LLP/London, UK). Resource Person discussed about the evolution of **Electric Vehicle** and its scope. The keynote speaker briefed about the factors that favor electric vehicles. The talk focused on the benefits that can be availed on usage of electric vehicles. The lecture also covered the positive and negative impacts of Electric Vehicle on other industries.

He also gave few glimpses on job opportunities in the Electric Vehicle field and explained about the availability of online courses on Electric Vehicle. He gave an overview about the modules present in the course. The guest lecture was concluded with a formal vote of thanks by Ms. R. Vaishnavi, Assistant Professor/ECE.
